

Heather's Flower Water Tea

Ingredients:

- Dried flowers
- Hibiscus is the best!
- Honey
- Hot Water
- Your favorite mug, and people for your tea party!

First, make your teabag! You only need a small bit for one cup, but for a large pitcher, a few Tablespoons would be good. Steep your tea for 3-4 minutes in boiling water. Add in honey to sweeten and stir well. Serve some hot, or place in the fridge for a refreshing cold tea later!
